

## CMIG Membership Photographic Waiver

---

From time to time we may take photos / videos of members either individually or in their class for education, training or promotional reasons. This may include photos of members receiving awards or taking part in activities to serve as a record of their achievement. The club may occasionally use these in our official communication channels.

Please read the following statement and indicate your acceptance by ticking the "I agree to Photographic Waiver" box on our club membership form.

-----

*I agree to CMIG taking images of my child for the reasons above and understand that the club may use these in its official communication channels from time to time.*

-----

You may opt out of this and your child will be treated as a protected person. The club will endeavour to ensure wherever possible that they do not appear in any images taken by a member of staff in the normal course of any club gymnastics activity.
